

SNAKES & LADDERS GAME

An unlimited amount of children may play the game. The game requires either dices or a spinner (not included). Each player in turn will either roll or spin and move along the board the number of space they got. Landing on a square with a snake's head will send them sliding down the snake to the square with the end of the snakes tail in it. Landing on a square with the bottom of a ladder will allow them to climb to the square at the top of the ladder.

The winner is the first player to reach the end of the board.

Game includes; the board, 3 ladders, 4 snakes, "start" and "end".
